You were the primary chemist here. If you reviewed Annie's notes, would you feel comfortable forming an opinion based on your review of her work?

Hi Ryan,

I don't have my notes in front of me fo███████ but if my name is on the left hand side of the drug cert then I was the primary chemist and if it is on the right then I was the gc/ms chemist.

Hi Kate,

We have another case together scheduled for 7/16/12. I just wanted to confirm your availability for that week and also double check that it was the same deal that you did the GC/MS testing on that item and are comfortable testifying that the substance was cocaine. The Lab No. ██████ The defendant is ███████

Thanks!

Ryan

Yes, I just wanted to let you know because every ADA and/or judge is different on what they prefer or will allow.

Hi Kate,

Without having done the preliminary testing, do you feel comfortable testifying to a reasonable degree of scientific certainty that it is cocaine?

Hi Ryan,

I did the GC/MS and I can testify to those findings. I did not have custody of the drugs, and I did not do any of the prelim testing or the weighing so I would not be able to testify to that. I can speak to lab policy in how a sample such as this would be tested. The other chemist, Annie Dookhan, no longer works at the lab.

Hi Kate,

Thanks for the information. Did you do the GC/MS testing and would you be able to testify based upon your own observations and testing of the items that they were, in fact, cocaine? Or do we require another chemist?

Thanks Kate, I appreciate your help!

Ryan

Hi Ryan,

Attached is the info you requested for CW v ███████████████████
Let me know if you need any additional info.

Thanks,
